ABSTRACT

The purpose of this report is to present descriptive data collected in the spring and fall of 1970 from a national sample of over 54,000 black high school juniors and seniors. The data were collected as part of a program designed to provide counseling and guidance services to black youth, and to establish a national longitudinal data resource for research analysis. Some of the major findings of the study include: (1) of the more than 54,000 student respondents, 60% were females; (2) almost two-thirds of the students aspire to attain a bachelor's or master's level degree; (3) almost 90% would be willing to work full-time if this were necessary to stay in college; (4) the most popular career choices selected by these students are in the education and business fields; (5) over 80% feel that important reasons for going to college are to learn more, get a better job, and fulfill a need for college trained black people; (6) 13% report that there are 8 or more dependents in their families; (7) slightly more than 14% come from homes where the annual gross income is \$12,000 or more; and (8) a majority of the respondents indicated that they think students learn most from books and teachers, and least from people in the community and other students. The National Scholarship Service and Fund for Negro Students (NSSFNS) is a non-profit organization founded in 1946. Its purpose is to assist Black high school students in their efforts to obtain continuing education and financial aid by means of a college advisory and referral service. NSSFNS is the only national organization providing these services for Black students and charging no fee to the student or the high school. NSSFNS Research Reports are designed to disseminate descriptive and research findings to the general public.

## ACKNOWLEDGEMENTS

The development and successful implementation of a project of this magnitude and complexity represents the collaborative effort and combined talents of many persons.\* Each member of the Staff of the National Scholarship Service and Fund for Negro Students, during the past three years, assumed shared responsibility for some key aspect of the total effort. In particular, Mr. W. Gerow Schick, Jr. as Director of Systems at NSSFNS during the formative stages of system design and development, made a major contribution to the success of this project.

We are also especially grateful to Dr. Clarence H. Bradford of the University of California at Los Angeles, Dr. Dorothy Meier of San Fernando Valley State College, Miss Penny L. Edgert of the University of Chicago, Dr. Allen N. Herzog of Nova Scotia Newstart, Inc., and Charles R. Beauregard, Richard P. Schuminski and Robert R. Smith of National Computer Systems for their aid in the design and implementation of the total system. In addition to her work on the NSSFNS system, Miss Edgert accepted complete responsibility for the design and execution of the computer programs which generated the output tables presented in this report. Dr. Bradford and Dr. Meier also made a major contribution in devising the questionnaire and its item content.

In the design of the instrument and the preparation of this report, we also utilized several of the concepts developed by the Staff of the Office of Research at the American Council on Education. Finally, and most importantly, this report would not have been possible without the support and cooperation of the students themselves and their high school counselors.

## A NATIONAL PROFILE OF BLACK YOUTH:

### THE CLASS OF 1971

The purpose of this report is to present descriptive data collected in the spring and fall of 1970 from a national sample of over 54,000 Black high school juniors and seniors. These data were collected by the National Scholarship Service and Fund for Negro Students (NSSFNS) as part of a program designed to provide counseling and guidance services to Black youth, and to establish a national longitudinal data resource for research and analysis.

This report is intended to provide persons concerned about our nation's Black youth with objective information about the high school class of 1971. The data are presented as percentages; statistical tests of significance are not included. Our major purpose in presenting these data is to make them generally available without regard to arbitrary distinctions of importance.

Future research reports in this series are planned which will include analytical studies of relationships among the data. The information provided by these students, together with followup data to be collected in subsequent years, will be used to evaluate changes in the student's educational and vocational plans, and changes in attitudes and behavior during those formative years at the transitional stage between secondary school and continuing education or the world of work. It is our hope that sufficient funding will be forthcoming to enable us to make these data files available to other researchers and interested persons under conditions that safeguard student and institutional anonymity.

#### The NSSFNS Student Application Form

The NSSFNS student application form was designed to serve three functions: first, to obtain data needed to fit student characteristics with the characteristics of over 3,000 post-secondary institutions in order to help counsel the student with regard to educational opportunities and sources of financial aid;

second, to obtain standard descriptive data for background and information purposes; and, third, to obtain more research-oriented data for longitudinal research. Thus, the form included items designed to provide information about student background characteristics, high school experiences and achievements, future goals, aspirations and expectations, interests and attitudes.

There are two groups comprising the cohort of students for this analysis. In the late spring of 1970, Black high school juniors who received a score of 70 or higher on the Preliminary Scholastic Aptitude Test (PSAT) and who indicated on the test answer sheet a desire to receive NSSFNS services were contacted through their high school counselors. In addition, high school counselors were asked to administer the NSSFNS application form to their Black juniors who had at least a B average and were interested in attending college. There are 17,730 students in this group.

After the successful spring administration, the NSSFNS staff decided to offer its services to all Black students, regardless of test scores. Thus, all Black high school seniors were invited to participate in the fall of 1970 through their high school counselors. After eliminating forms received from students who had been counseled as juniors, 36,990 forms were processed. Thus, this report is based on data obtained from 54,720 NSSFNS counselees who comprise the Class of 1971.

Although the data were collected from these two groups at different times, this report presents the combined responses. With the exception of a few items dealing with student evaluation of their high schools, the spring and fall application forms were identical. A copy of a portion of the Student Manual (used by the student to complete the application), the Application Form and deleted and substituted items from the two administrations appear in Appendix A of this report. Several items presented in this report (e.g., father's occupation)

have been recoded into a smaller number of categories. The original alternatives and the arbitrary coding scheme used to report the data for region, parent's occupation, extra-curricular activities, probable major field and career choice appear in Appendix B.

#### The Class of 1971

On the following pages we present a national profile of Black youth. The data are displayed, wherever possible, in the order of the items on the Student Application Form. The data tables are organized into five sections, each section consisting of thirteen pages. The five sections display the data by sex, gross family income, head of household, region of residence and number of dependents. These sections are followed by a display of the student responses to each of the nine concepts rated using the semantic differential technique. Each table shows the item stem, the number of respondents to the item and the percentage of students making each response.

Because the information provided in this report is extensive, we urge the reader to review both the data and the questionnaire itself together with the instructions to the student provided in the Student Manual. We recognize that descriptive data, such as are presented in this report, are subject to a wide variety of interpretations. Nevertheless, in providing these data, it is our hope that the results will aid the many individuals and organizations striving to comprehend the talents and values of our nation's Black youth.

The picture that emerges from the following page after page of numbers and statistics is a bright one. It is a profile of a segment of America's youth that shows talent, promise, hope, dedication and cohesiveness. We wish them well!

## SECTION I

This section (pages 2-19) of the Student Manual is designed to assist you in completing the NSSFNS Student Application Form. Follow these steps carefully:

- 1.** Turn to the NSSFNS Student Application Form and read the "Dear Student" letter.
- 2.** Print your name and home address in the space provided (items 1 and 2 on page 1 of the Application).
- 3.** Read the "Example" and the "Sample Written Response Grids" on page 1 of the application; then complete the answer to item 3.
- 4.** Turn to the instructions on page 3 of this Manual and look at examples A, B and C for assistance in completing the other items on page 1 of the Application.
- 5.** After gridding your NSSFNS high school code number on page 1 of your Application, turn to page 2 of the Application and follow the instructions.

# INSTRUCTIONS FOR THE NSSFNS STUDENT APPLICATION FORM

A Item No. 4 on the Student Application Form requests that you enter and code the annual gross income of your family. A sample of the correct way to write and code this information is shown on page 1 of the Application Form (S2.). Notice that the information printed in the boxes (4200) is **right-justified**, that is, since the amount indicated is less than \$10,000, the left-most column of digits is blank and the "0" digit circle has been marked together with the 4, 2, 0, and 0 circles in the grid. Another example of how to write and code family income for a student whose annual gross family income was \$9,482.85 follows:

	9	4	8	2
●	0	0	0	0
1	1	1	1	1
2	2	2	2	●
3	3	3	3	3
4	4	●	4	4
5	5	5	5	5
6	6	6	6	6
7	7	7	7	7
8	8	8	●	8
9	●	9	9	9

Notice that income is reported in dollars only ( the 85¢ was dropped) and that the left-most "0" circle is marked.

B Item No. 5 on the Application Form asks for your high school identification number. You should obtain this number from your high school counselor and enter and code either the 8-digit ACT code or the 6-digit CEEB code. (ACT is the American College Testing program's code and CEEB is the College Entrance Examination Board's code.)

ACT CODE							
1	2	3	8	9	2	6	7
0	0	0	0	0	0	0	0
●	1	1	1	1	1	1	1
2	●	2	2	2	●	2	2
3	3	●	3	3	3	3	3
4	4	4	4	4	4	4	4
5	5	5	5	5	5	5	5
6	6	6	6	6	6	●	6
7	7	7	7	7	7	7	●
8	8	8	●	8	8	8	8
9	9	9	9	●	9	9	9

ACT high school code is 12389267

CEEB CODE					
4	3	9	8	7	6
0	0	0	0	0	0
1	1	1	1	1	1
2	2	2	2	2	2
3	●	3	3	3	3
4	4	4	4	4	4
5	5	5	5	5	5
6	6	6	6	6	●
7	7	7	7	●	7
8	8	8	●	8	8
9	9	●	9	9	9

CEEB high school code is 439876

C **IMPORTANT:** The last item on page 1 of the Student Application Form (to the right of No. 5) is a grid which represents your NSSFNS high school code. You must enter and code your school's NSSFNS number on your form. You should obtain this number from your high school counselor. If your school's NSSFNS number is 200362, then you should complete the grid as follows:

NSSFNS CODE					
2	0	0	3	6	2
0	●	0	0	0	0
1	1	1	1	1	1
●	2	2	2	2	●
3	3	3	●	3	3
4	4	4	4	4	4
5	5	5	5	5	5
6	6	6	6	●	6
7	7	7	7	7	7
8	8	8	8	8	8
9	9	9	9	9	9

NSSFNS high school code is 200362

After gridding your school's NSSFNS code number on page one of your Application, turn to page two of the Application and follow instructions.

## INSTRUCTIONS FOR COMPLETING QUESTIONS 6 THROUGH 13 ON THE NSSFNS APPLICATION

The purpose of this part of the questionnaire is to find out the meanings of certain things to various people like yourself by having them judge them against a series of scales. In answering these questions, please make your judgments on the basis of what these things mean to you. On each page of this part of the questionnaire you will find a different concept (MYSELF, COLLEGE DEGREES, etc.) to be judged, and beneath the concept a set of rating scales (good. . .bad, fair. . .unfair, etc.). You are to rate the concept on each of the scales shown. Make a separate and independent judgment on each item. Work at fairly high speed. Do not worry or puzzle over individual items. There is no correct or incorrect way to answer these scales. It is your first impression, the immediate "feelings" about the items, that we want. On the other hand, please do not be careless, because we want your true impressions or feelings.

Here is an example of how you are to use these scales:

### PRISON

If you feel that the concept shown above (PRISON) is very related to one end of the rating scale (fair. . .unfair), you should fill in the circle as follows:

If you feel that the concept is **rather** related to one or the other end of the scale (but not extremely), you should fill in the circle as follows:

If you feel that the concept is only **slightly** related to one side as opposed to the other side (but is not really neutral), then you should mark the circle as follows:

The direction toward which you check, of course, depends on which of the two ends of the scale seem most like or correct for the thing you are judging.

If you feel that the concept is **neutral** on the scale, both sides of the scale equally associated with the concept, or if the scale is completely **irrelevant** and **unrelated** to the concept, then you should mark the middle circle:

**IMPORTANT:** (1) Be sure you mark every scale for every concept—**DO NOT OMIT ANY.**

(2) Never fill in more than one circle on a single scale.

## EXPLANATION OF DEGREES

(See item 23 on page 4 of the Application Form)

### Technical Certificate

A technical certificate is generally awarded after successful completion of one or two years of study at a trade or technical institute or junior college.

### Associate Degree

The Associate degree is usually awarded after successful completion of two years at a junior college.

### Bachelor's (B.A., B.S., etc.)

The Bachelor's degree (Bachelor of Arts, Bachelor of Science, etc.) is usually awarded after successful completion of four years at a college or the undergraduate division of a university.

### Master's (M.A., M.S., etc.)

The Master's degree (Master of Arts, Master of Science, etc.) is usually awarded after the successful completion of one or two years of study in the graduate division of a university. Students are usually admitted to a Master's degree program only after the successful completion of four years of college or undergraduate school.

### Doctorate (Ph.D., Ed.D.)

The Doctorate degree (Doctor of Philosophy or Doctor of Education) is usually awarded after the successful completion of at least three years of study (or its equivalent) beyond the Bachelor's degree, including any course work applied toward the Master's degree, and one year of research for the dissertation. Periods of full-time attendance are often expected for the Ph.D. and less commonly for the "professional" doctorate such as the Ed.D.

### M.D., D.D.S., or D.V.M.

The M.D. degree (Medical Degree or Doctor of Medicine) is usually awarded after the successful completion of four years of medical school. Students desiring to become physicians (or "doctors") are admitted to medical school only after receiving the Bachelor's degree.

The D.D.S. (Doctor of Dental Surgery) is usually awarded after successful completion of three years of dental school. Students desiring to become dental surgeons (or "dentists") are admitted only after successful completion of two to four years of college.

The D.V.M. (Doctor of Veterinary Medicine) is awarded after successful completion of four years of veterinary school. Students desiring to become doctors of veterinary medicine ("veterinarians") are usually admitted to veterinary school only after completion of two to four years of college.

### LL.B or J.D.

The LL.B. (Bachelor of Laws) or J.D. (Doctor of Jurisprudence) degrees are generally awarded after successful completion of three years of law school. Students desiring to become lawyers are usually admitted to law school only after successful completion of four years of college.

### B.D.

The B.D. (Bachelor of Divinity) is sometimes awarded after successful completion of a course of study leading to the ministry or priesthood. Students desiring to become clergymen or receive the B.D. degree are advised to consult clergymen of their own religion regarding academic preparation.

# NSSFNS STUDENT APPLICATION FORM

**Dear Student:**

NSSFNS has designed an advanced computer system to help you plan your educational future. This questionnaire is part of that system. This is not a test, but every question is important. The questionnaire asks you to describe your individual needs and qualifications. In order for us to help you best, we ask that you answer each question as honestly and as exactly as you can. Many of the questions may seem unrelated to your aptitude and potential; however, your responses will help us to develop different and innovative ways of dealing with the problems of obtaining increased access to higher education for black students. The information you provide will help us to recommend to you those institutions which meet your individual needs best and where your chances of obtaining acceptance and financial aid are greatest.

If you completed a similar NSSFNS application in May or June of this year, please mark this circle ☐, and complete the rest of the form. We want you to complete the form because your second set of responses will be valuable for us in assessing the validity of our procedure.

We will do all we can to ensure that the only use of your responses to this questionnaire are those that you would wish. If there are items to which you cannot respond, please leave them blank and take the opportunity to inform NSSFNS of your reasons for leaving them blank. Our address appears on the last page (page 12) of this questionnaire.

Because your responses will be recorded by machine, it is important that you follow all directions carefully. Please read each item completely before you answer it to make sure that you give the appropriate response. Use only a soft lead pencil. Do not use a pen or colored pencil. Do not make other marks in this booklet.

**FOR NCS  
USE  
ONLY**

**Example:** Will marks made with a ball pen, fountain pen or colored pencil be correctly recorded?

Yes..... ☐ No..... ☒

**ANSWER**

Look at the sample written response grids at the right. The first grid (S1) shows the correct way to write and code the response to date of birth for a student whose birthday was January 10, 1953. The second sample grid (S2) shows the correct way to write and code the response to annual family income for a student whose annual family income is \$4,200.00.

Write and code the information requested below in the appropriate boxes. (See the sample written response grids at right.)

**NOTE:** Before completing Question 60 above, please study the sample address grid on Page 11. Notice that the sample grid has 10 numbers at the top of each column and then the alphabet. Please print your home street address in the boxes provided above. Use abbreviations where necessary. Next print the name of your city. Then print your zip code in the spaces indicated. Finally, fill in the circles for the corresponding numbers, letters or spaces below each box. Remember to fill in the circles for spaces (skipped) boxes as shown, for example, in the sample grid between the house number and street name and the spaces after Chicago.

THANK YOU!

*This is the end of the questionnaire. If there are other factors which you feel that we should be aware of, please drop us a line. We at NSSFNS are pleased that you have completed this application and that you are concerned about your educational future. We will be in touch with you in the near future and we hope to keep in touch with you during the years ahead. Our job is to assist you, and with your aid, other minority group students. We count upon your continuing cooperation and help. From the entire staff here at NSSFNS, best wishes for your future.*

# 8. MY TEACHERS	THE PERSON I MOST RESPECT
#38. Student rating of high school experience	Self-reported test scores (ACT)
#39. Over-all satisfaction with school	Self-reported test scores (PSAT and SAT)

\* The deleted items dealt with various aspects of the high school experience and environment. During the spring administration, we encountered serious concern from many high schools about allowing the student to rate the school and, in some instances, the school refused to distribute the forms. Thus, in the interest of counseling the students, we removed all such items from the form for the fall administration. It is ironic, when one examines the responses to these school-life items shown in this report, that the students who did rate their schools overwhelmingly endorsed them in a favorable manner. Other minor modifications were made to the fall application form. However, these changes were related to improving item presentation or instructions. Items 38 and 39, as they appeared in the spring form, are shown below.

38. Rate your experiences at school in each of the following areas according to how you have felt about them during the past school year. (Mark one in each row)

Hold for Release A.M. Papers, Thursday, March 23, 1972

(Released in Washington, D. C.)

New York, March 22, 1972--The first national report on college bound Black high school students was released today by the National Scholarship Service and Fund for Negro Students (NSSFNS).

The report, "A national profile of Black youth: The class of 1971," was compiled from information received from students applying to the counseling and college referral service offered by NSSFNS. The report reflects the educational aspirations of more than 54,000 Black high school youths all of whom may now be freshmen at colleges or universities across the country. The findings in the report were compiled by National Computer Systems (NCS) a survey and data processing company based in Minneapolis, Minnesota.

"Our major purpose in presenting this report is to provide base line objective information to the many individuals and organizations striving to comprehend the talents and values of Black youth," said David B. Kent, Jr., executive director of NSSFNS.

The computerized system which gathered the data was assembled using a grant from the Ford Foundation.

"Because the report presents data without regard to arbitrary distinctions of importance, it may be subject to a wide variety of interpretations. We invite these from interested readers. Future reports in this series are planned which will include analytical studies of the findings," Kent said.

The particular research was funded in part by a grant from the Office of Economic Opportunity (OEO).

The report reflects the recent growth of NSSFNS which provides a non-fee service to a significant segment of the nation's Black high school population. It is the only national agency geared solely to furthering the aspirations of Black students interested in entering higher education.

Summary highlights from the study are attached to this release.

HIGHLIGHTS: NSSFNS RESEARCH REPORTS

Vol. 1, No. 1

A NATIONAL PROFILE OF BLACK YOUTH: THE CLASS OF 1971

- of the more than 54,000 student respondents to this survey, 60 percent were females.
- almost two-thirds of the students aspire to attain a bachelor's or master's level degree.
- almost 90 percent would be willing to work full time if this were necessary to stay in college.
- sixty-five percent would be willing to incur a large personal debt in order to go to college.
- the most popular career choices selected by these students are in the education and business fields.
- the major field choices most often selected were business, education, the social sciences and the health professional fields.
- over 80 percent feel that important reasons for going to college are to learn more, get a better job and fulfill a need for more college trained Black people.
- slightly more than one-fourth of the students live in homes where the head of the household is the mother.
- thirteen percent report that there are eight or more dependents in their families.
- almost 15 percent of the students come from homes where the annual gross family income is less than \$3,000.00.
- slightly more than 14 percent come from homes where the annual gross family income is \$12,000.00 or more.
- of those students reporting family incomes of less than \$3,000.00: slightly more than 70 percent reside in the South; 40 percent of their father's did not complete grammar school; 18 percent report that their father's are unemployed; 50 percent live only with their mother; and, 16 percent report that there are eight or more dependents in their family.
- a majority of the respondents indicated that they think students learn most from books and teachers, and least from people in the community and other students.
- a majority of the students report that they feel that Educators, Civil Rights Leaders, Political Leaders and Scientists (in that order) contribute most to society, and that Military Figures, Actors or Entertainers, Athletes and Businessmen (in that order) contribute least to society.

HIGHLIGHTS: NSSFNS RESEARCH REPORTS

(Con't)

- even though slightly more than two-thirds of the students agree that the "authorities" aren't really aware of the problems of the average Black man, only about one-fourth agree that the condition of the Black man is worsening.
- over 80 percent of these students report that essential or very important personal life goals are "Helping my people" and "Helping others in times of trouble".
- seventy-five percent or more of the students indicated that they think the Federal Government should increase its current involvement or initiate new programs in the areas (in order of importance) of controlling environmental pollution, crime prevention, eliminating poverty, direct financial aid for the poor, compensatory education for the disadvantaged, urban renewal and consumer protection from faulty goods and service.
- other roles of the Federal Government endorsed by more than one-half of the students include achieving school desegregation and control of firearms.
- less than one-half of the students endorsed the Federal Government's role in providing special benefits to veterans and control of the birth rate.
